## Translations, Inc.

**COMPANY  
PROFILE**

## ➤ **About us**

Behind Lucent Bridge stands an experienced team of translators, readers, engineers, scientists and attorneys whose common purpose is to provide you with high quality translations of patent files between English and Chinese for prosecution in China.

In order to achieve this, our staffs have profound knowledge of the specialist areas involved and of the patent system in addition to their linguistic skills. Our certifications are reflective of an objective and diligent approach in delivering quality work products to our clients. Attesting to our work deliverables, particularly when executing patent translations, is a necessary criteria and it is offered as a courtesy to our clients. Our linguists' expertise is attested to in an official fashion.

All of our staffs are aware of the high duty of care with which patent translations in particular must be performed.

The four pillars of our translation work are pure accuracy, high efficiency, thorough technical and scientific understanding, and aesthetically appropriate expression.

## ➤ **Services**

The depth of knowledge we maintain regarding the Chinese jurisdiction, serves as a dynamic advantage for our clients. That Chinese knowledge equips us with up-to-date information on specific patent office rules, deadlines, extensions, and other jurisdiction-specific regulations associated with the Chinese prosecution process.

We understand the needs, deadlines and urgencies associated with our clients' dockets. During compressed project engagements, we have successfully risen to the challenge of narrow time windows during which translations are to take place. In recognition of our clients' needs, we strive to deliver translations as far ahead of schedule as possible. Our commitment to making the filing process easy is evident through our track record of diligence in communicating with our clients, as well as with their respective foreign agents and associates.

Centralizing the logistics associated with delivering translated patents abroad is not the only benefit for our clients. Today's ever savvy managers of Chinese patent portfolios are well aware of the outstanding cost benefit associated with translating filings through our specialty services. Our favorable rates stem

from our efficient approach to executing pristine translation deliverables. Therefore, our Chinese filing translation services has enabled the relief of millions of dollars previously and unnecessarily spent against budget by our clients. We provide an excellent patent translation service geared for Chinese filing in a financially comfortable fashion.

## ➤ **Quality Assurance & Project Management**

Quality assurance for all of our clients can be seen through our diligence in managing the translation process.

Our project managers are uniquely experienced within the international IP arena. Our project team is focused on managing two key project components simultaneously: the technology as well as the language at hand. We maintain a keen eye on all project details. Our analytical approach is evidenced by our proprietary translation process, which enables us to consistently deliver excellence.

Hereafter is our translation process:

- Initial project review; technology and language
- Project assigned to experienced project manager
- A project- or client-specific team of translators and editors is formed
- Initial translation completed
- Review, editing, and proofreading phase
- Initial translation and reviewing teams collaborate during “loop-back” step

## ➤ **Specialties**

Our patent attorneys, personally having at least 7 years experience in translating, have translated an average of 500 patent applications. They specializes in the fields of aircrafts, vehicles, elevators, mechanical devices, machines, electrical and electronic devices, medical devices, automatic control devices, engineering devices, optical devices, welding and metallurgical devices, and other mechanical and electrical related devices.

The specific areas we provide translation services are:

Aeronautics

Agriculture

Applied Mechanics  
Aviation Science  
Civil Engineering  
Communications  
Construction  
Management  
Computer Science  
Digital Technologies  
Electrical Engineering  
Electronics  
Environmental Science Geology  
Hydraulics  
Industrial Engineering  
Information Technology

Information Systems  
Marine Science  
Medical Devices  
Mechanical Engineering  
Nuclear  
Engineering  
Oil & Petroleum  
Optics  
Physics  
Radiation  
Robotics  
Semiconductors  
Software [Others]

➤ **Contact**

For a non binding quotation or if you have further questions, you can contact us in the following ways:
